**TRADE FACILITATION NOTICE**

The importer of non scrap items (that can be handled manually as well as with forklift) who want to defer the clearance of the import consignments due to any reason (e.g. lockdown, lack of demand etc.) can warehouse their imported goods in the bonded warehouse of OWPL upto a period of 90 days without any interest on customs duties and upto one year by paying the interest on customs duties. The importer/CB has to file the warehousing Bill of Entry in the respective ICD and secure the OOC from the customs so as to move the cargo to OWPL against bond (only the undertaking till lockout period). This will save the importer from the shipping line detention. The importer/CBs need not to come physically to OWPL for that. They can send the OOC copy of BE and the Gate out copy of the container with detail as to the value, no. of packages, container no, seal no. etc online to OWPL. The import loaded containers will be moved to bonded warehouse by OWPL and after offloading the goods in the warehouse the empty container will be moved to the empty yard. The importers will be charged at the normal public tariff of BONDED WAREHOUSE OWPL for the handling and transportation charges while discount @20% will be given on the storage charges.

This facility can also be availed by the importers of scrap upto the period given by the shipping lines.

For any clarification contact the undersigned.
